Adjusting Weather Units on Your Moto 360

Inas B. - 2025-10-13 - Product Features

Easily customize the weather units on your Moto 360 to suit your preferred measurement system. Follow these simple steps to switch between Celsius and Fahrenheit.

Step-by-Step Guide:

1. **Access Proactive Assistant:**
    - Swipe left on your watch face to open the proactive assistant.
2. **Open Settings:**
    - Scroll to the bottom and tap on **Settings** to access the menu.
3. **Adjust Weather Units:**
    - Within the settings menu, find the **Weather Units** option.
4. **Select Preferred Units:**
    - Choose between **Celsius** or **Fahrenheit** according to your preference.
5. **Save Your Changes:**
    - Confirm your selection to apply the new weather units.

With these steps, your Moto 360 will display weather information in your preferred units, making it easy to stay informed at a glance.
