Enjoy Music On-the-Go with Offline Playback on Your Moto360

Inas B. - 2025-10-13 - Product Features

The Moto360 3rd Generation makes it easy to enjoy your favorite tunes even without an internet connection. With offline music support, your music goes wherever you do.

Using the NavMusic App

1. **What it does:**
   NavMusic lets you transfer MP3 files directly to your watch. Perfect for workouts, walks, or anytime you want music without your phone.

2. **Install the app:**
   Download NavMusic from the Google Play Store and follow the on-screen instructions to set it up.

3. **Transfer your music:**
   Once installed, move your MP3 files to the watch and enjoy your library offline.

Using the iHeartRadio App (iOS)

1. **Offline support:**
   The iHeartRadio app on iOS lets you listen to music offline (availability may vary by region).

2. **Get started:**
   Download the app from the App Store, check compatibility, and explore offline features.

Make the Most of Offline Music

Whether you’re commuting, exercising, or relaxing, offline music support on your Moto360 gives you freedom and flexibility. Keep your favorite tracks ready, no internet required.
