Make Your Moto 360 Watch Face Truly Yours

Inas B. - 2025-10-13 - Troubleshooting & Setup

Your Moto 360 isn't just a smartwatch—it's a canvas for your personal style and information. With customizable complications, you can display the details that matter most, right on your wrist.

How to Customize Complications:

1. **Touch and Hold the Watch Face:**
    - Press and hold your watch face to enter customization mode.
2. **Select a Complication:**
    - Tap an existing complication to see available options.
3. **Switch and Explore Options:**
    - Tap again to view alternative displays. Scroll through to find what suits your needs—weather, steps, calendar events, and more.
4. **Rearrange Complications:**
    - Press and hold any complication to drag it to a new position on your watch face. Release to set its new location.
5. **Add App Shortcuts:**
    - Some complications let you add shortcuts to their parent apps, giving you quick access to the apps you use most.

By customizing complications, you can ensure that your watch face reflects both your style and your priorities. Stay informed at a glance and enjoy a truly personalized Moto 360 experience.
