Connecting Your Moto 360 to Wi-Fi Using Android

Inas B. - 2025-10-13 - [Troubleshooting & Setup](#)

Keeping your Moto 360 connected to Wi-Fi ensures your smartwatch stays updated and responsive. Setting up or switching networks on an Android device is straightforward with these steps:

Step 1: Wake Up Your Watch

- Tap the screen to wake up your Moto 360 if it's dim.

Step 2: Access Quick Settings

- Swipe down from the top of the watch face to reveal Quick Settings.

Step 3: Open Settings

- Tap the **Settings** icon. If it's not visible, swipe left to locate it.

Step 4: Go to Connectivity Options

- Scroll down, select **Connectivity**, then tap **Wi-Fi**.

Step 5: Add a Network

- Tap **Add Network**. Enter the network name if required.

Step 6: Enter Password

- If the network is secured, enter the Wi-Fi password on your phone when prompted.

Step 7: Connect

- Tap **Connect** to finalize. Your Moto 360 will join the Wi-Fi network, ensuring seamless access to updates, apps, and notifications.

By following these steps, your Moto 360 will stay connected, letting you enjoy a smoother, smarter experience.
