Declining Calls on Your Moto Watch 70

Inas B. - 2025-10-08 - Product Features

The Moto Watch 70 lets you **reject incoming calls**, but it does **not support answering calls directly** from the watch.

When a call comes in:

- **Reject the call:** Tap the red decline button on your watch screen.
- **Answer on your phone:** Use your connected smartphone or tablet to pick up the call.

> Note: The Moto Watch 70 does not have a microphone or speaker for voice calls. Ensure your watch is paired with your phone via Bluetooth for call notifications.

If you need additional assistance, reach out to our support team.
