Manage App Notifications on Your Moto 360: Block or Unblock with Ease

Inas B. - 2025-10-08 - [Product Features](#)

The **Moto 360** lets you **control which apps send notifications**, giving you the flexibility to stay focused while staying informed. Whether you want to block a distracting app or re-enable alerts, the process is simple and intuitive.

How to Block App Notifications

1. Open the Notification Window

- Swipe **right from the left edge** of the screen to access your notifications.

2. Block the App

- Press and hold the notification for a few seconds.
- When the **“Block Notification”** option appears, tap it.
- Notifications from that app will no longer appear on your watch.

How to Unblock App Notifications

If you decide to receive notifications from a previously blocked app:

1. Open App Notifications Settings

- Swipe **down from the top** of the watch face.
- Tap **Settings > Apps & notifications > App notifications**.

2. Select the App

- Tap **“Show all”** to view all apps.
- Find the app you want to unblock.

3. Enable Notifications

- Toggle the switch to allow notifications again.

With these simple steps, you can **tailor your Moto 360 notification experience**, keeping only the alerts that matter while avoiding distractions.
