# Moto 360 Theater Mode: Control Your Display with Ease

Inas B. - 2025-10-08 - [Product Features](#)

The **Moto 360** offers **Theater Mode**, a handy feature to help you focus without interruptions. When enabled, your watch's display stays off, and notifications won't light up the screen—perfect for movies, meetings, or quiet moments.

## How to Enable Theater Mode

### 1. Swipe Down

- Swipe down from the top of the watch screen to access quick settings.

### 2. Select Theater Mode

- Look for the **Theater Mode icon** (a small wristwatch).
- Tap it to activate Theater Mode.

Once activated, your watch screen will remain dark, and notifications will be silenced, letting you enjoy uninterrupted focus.

## How to Disable Theater Mode

### 1. Press the Top Side Button

- Simply press the top side button to deactivate Theater Mode.
- Your display and notifications will immediately resume normal operation.

Theater Mode is a simple yet powerful way to **control when your Moto 360 is visible**, giving you flexibility for work, entertainment, or rest.
