Navigating Your Moto360 with Voice Commands

Inas B. - 2025-10-13 - Product Features

Experience hands-free convenience with your Moto360 using Google Assistant. With simple voice commands, you can launch apps, find files, search the web, and more — all without touching your watch.

How to Use Voice Commands

1. **Activate Google Assistant**
   Hold the top side-button until you feel a vibration and the Google Assistant window appears.

2. **Tap the Microphone Icon**
   Inside the Assistant window, tap the microphone to start speaking.

3. **Speak Your Command or Question**
   Clearly say what you want to do. Google Assistant will process your request and take action.

What You Can Do

- **Launch Apps:** Open any installed app with just your voice.
- **Find Files:** Quickly locate songs, documents, or other content.
- **Search the Web:** Ask questions or search online effortlessly.

With just a few simple steps, your Moto360 makes everyday tasks faster and more convenient. Hold the button, tap the mic, and speak — it’s that easy. Enjoy a smarter, hands-free experience with your smartwatch.
