Personalize Your Moto Watch 40 with Custom Watch Faces

Inas B. - 2025-10-10 - Troubleshooting & Setup

Make your **Moto Watch 40** truly yours by selecting a watch face that matches your style. You can choose from six built-in faces on the watch itself, or explore more options using the **Moto Watch Lite App**.

Method 1: Change Directly on the Watch

1. On your current watch face, **long-press the screen**.
2. When the watch vibrates and shows a zoomed-out view, **swipe left or right** to browse the six built-in styles.
3. Tap the watch face you want to apply—it will update instantly.

Method 2: Change Through Watch Settings

1. Swipe down from the watch face to open **Quick Settings**.
2. Tap the **Settings** icon.
3. Scroll and select **“Dial”**.
4. The watch will vibrate and show a zoomed-out view of the available watch faces.
5. Swipe left or right to preview all six built-in styles.
6. Tap your preferred watch face to apply it.

Method 3: Customize via Moto Watch Lite App

1. Open the **Moto Watch Lite App** on your phone.
2. Tap **“My Watch”**.
3. Browse the expanded selection of watch faces available in the app.
4. Select your favorite design and **sync it** to your Moto Watch 40.

> Note: While the watch comes with six default faces, the app gives you more options for added personalization.

Enjoy creating a watch face setup that perfectly suits your style and makes your Moto Watch 40 uniquely yours!
