SiriusXM on Your Moto360

Inas B. - 2025-10-13 - Product Features

Enjoy a world of audio entertainment on your wrist with SiriusXM. Here’s how to make the most of it on your Moto360 paired with an Android phone.

Interactive Display

- See song title, artist name, and album art directly on your watch while streaming from the SiriusXM app.

Playback Controls

- Control your music right from your Moto360: play/pause, skip tracks, and adjust volume (if supported by your app version).

Seamless Integration

- Quick access to music controls ensures a smooth experience between your Moto360 and SiriusXM app.

Personalized Experience

- Customize your channels and preferences using the SiriusXM app on your Android device for a tailored listening experience.

Optimal Functionality

- Keep a stable Bluetooth connection between your Moto360 and Android phone for smooth playback.

Note

- Features may vary depending on your SiriusXM app version.

With SiriusXM on your Moto360, enjoy easy-to-access song info, intuitive controls, and a vast library of audio content — all from your wrist.
