Streamlining App Downloads on Your Moto 360

Inas B. - 2025-10-13 - Troubleshooting & Setup

Discover how easy it is to add and download apps on your Moto 360, giving your smartwatch a personalized and powerful experience.

Step-by-Step Guide

1. **Open Play Store on Your Watch:**
    - Locate the **Play Store** on your Moto 360. This is your gateway to all apps designed for your smartwatch.
2. **Select "Apps on Your Phone":**
    - Tap **Apps on your phone** to sync apps already installed on your smartphone that have Wear OS versions. This creates a smooth and cohesive experience across your devices.
3. **Browse Available Apps:**
    - A list of apps from your phone, compatible with Wear OS and not yet installed on your watch, will appear on your screen.
4. **Download and Install:**
    - Tap the **download icon** next to the app you want to install. The app will download and install directly on your Moto 360.
5. **Explore Wear OS Apps:**
    - To find new apps not on your phone, select **Wear OS apps**. This opens a curated collection of apps optimized for your smartwatch.

Now you can easily tailor your Moto 360 to match your lifestyle and preferences, accessing your favorite apps directly from your wrist.
