Verification Email Not Arriving for Moto Watch 40

Inas B. - 2025-10-10 - [Troubleshooting & Setup](#)

If you're not receiving the verification email while setting up your **Moto Watch 40**, follow these steps:

1. Check Your Spam/Junk Folder

- Sometimes verification emails are mistakenly flagged as spam.
- Look in your **Spam** or **Junk** folder in your email inbox.

2. Reinstall the Moto Watch App

- Uninstall the **Moto Watch Lite app** from your phone.
- Reinstall it from your device's app store.
- Try the registration process again.

3. Use a Different Email Address

- If possible, register with a **different email address** to see if the issue is related to the original email.

4. Try "Login with Google"

- If the issue persists, use the **"Login with Google"** option during registration.
- This can bypass email verification and simplify the login process.
