How to Change the Watch Face on Your Moto Watch 120

Inas B. - 2025-10-10 - Troubleshooting & Setup

Personalize your **Moto Watch 120** by changing the watch face to suit your style. You can do this either directly on the watch or through your phone using the **Moto Watch Lite app**.

Method 1: Change the Watch Face Directly on the Watch

Touch and Hold
Press and hold the current watch face on the screen.

Swipe
Swipe left or right to browse through the available watch face styles.

Select
Tap on the watch face you want to apply.

Method 2: Change the Watch Face via Settings on the Watch

Access Quick Settings
Swipe down from the watch face to open the quick settings.

Open Settings
Tap the **Settings** icon (represented by a gear symbol).

Navigate to Display
Select **Display** from the settings menu.

Choose Watch Face
Select a **Watch face** from the options.

Browse and Apply
Swipe through the available designs and tap the one you want to apply.

Access Additional Watch Faces Through the Moto Watch Lite App

To explore more watch face designs beyond what's available directly on your watch:

1. Open the **Moto Watch Lite app** on your phone.
2. Select your **Moto Watch 120** under the "My Watch" section.
3. Scroll down to **Watch Face Settings**.
4. Browse and select from the full collection of available designs.

Troubleshooting

If the watch faces aren't loading or if you're experiencing issues:

- Make sure your **Moto Watch Lite app** is updated to the latest version.

- Ensure your **Moto Watch 120** firmware is also fully updated.

If the issue persists, please contact us for further assistance.
