Setting a Timer on Your Moto Watch 100

Inas B. - 2025-10-08 - Product Features

Your Moto Watch 100 makes setting timers simple and intuitive. Follow these easy steps to manage your time efficiently:

1. Wake Up the Display

- Tilt your wrist or tap the top button to activate the watch screen.

2. Access the Timer

- Tap the top button again to open the main menu.

3. Select “Timer”

- Scroll through the options and tap on **“Timer.”**

4. Create a New Timer

- Tap the red **“+”** button at the bottom of the screen to set a new timer.

5. Set Duration

- Choose the number of **hours, minutes, and seconds** for your timer.

6. Start the Timer

- Press the **play icon** to begin the countdown.

Quick Start for Previous Timers

- If you have used timers before, tap an existing timer and press play to start it instantly.

Tip: Your Moto Watch 100 supports up to **10 timers** for various activities, making it easy to stay on schedule.
