Getting Started with Google Assistant on Your Moto 360

Inas B. - 2025-10-08 - Troubleshooting & Setup

Unlock the full potential of your Moto 360 by enabling Google Assistant. With this smart assistant, you can manage your schedule, control apps, and get instant answers—all from your wrist.

How to Activate Google Assistant:

1. **Long-Press the Crown Button:**
    - Press and hold the top button (the crown) until your Moto 360 vibrates and the Google Assistant screen appears.
2. **Tap the Microphone Icon:**
    - On the Assistant screen, tap the microphone to start voice input.
3. **Speak Your Command:**
    - Clearly state your question or command to interact with Google Assistant.

Alternative Wake Words:

- Simply say **“OK Google”** or **“Hey Google”** to activate the Assistant without pressing any buttons.

What You Can Do with Google Assistant:

- Manage timers, alarms, and reminders.
- Access calendars, emails, and personal tools.
- Get news updates, directions, and online information.
- Translate text in real time.
- Have notifications or updates read aloud.
- Control smart home devices.
- Send messages or schedule appointments.
- Launch and control installed apps.

Harnessing Google Assistant on your Moto 360 makes your smartwatch smarter, more intuitive, and ready to

help you throughout your day.
