How to Pair Your Moto Watch 70 with the Moto Watch Lite App

Inas B. - 2025-10-08 - Troubleshooting & Setup

Pairing your Moto Watch 70 with the Moto Watch Lite App enhances your experience, giving you access to many features. Follow these steps:

1. Open the Moto Watch Lite App:

- Launch the app on your Android or iOS device.
- If not installed, download it from Google Play Store or Apple App Store.

2. Enable Bluetooth:

- Make sure Bluetooth is enabled on your phone.

3. Add Your Watch:

- In the app, tap **“Add watch”** to begin pairing.

4. Select Your Watch Model:

- Choose **“Moto Watch 70”** from the list of available models.

5. Choose Your Watch:

- Look for your Moto Watch 70 in the available devices list labeled **"Moto Watch70-XXXX"**.

6. Retrieve the Last Four Digits:

- On your watch, swipe down to access Quick Settings → Settings → About.
- Note the last four digits of the serial number.

7. Follow App Instructions:

- Enter the last four digits in the app when prompted.
- Follow on-screen instructions to complete pairing.

8. Pairing Success:

- Once paired, the app will confirm with **“Pairing success”**.

- Your Moto Watch 70 is now connected and ready to use for activity tracking, health monitoring, and customizable settings.

Pairing ensures you get the full potential of your Moto Watch 70 with a seamless and personalized experience.
