Lefty-Friendly Moto 360: Navigate with Comfort

Inas B. - 2025-10-08 - Product Features

Moto 360 goes the extra mile for left-handed users with the **Lefty app**, designed for those who wear their watch on the right wrist. Enjoy a comfortable, ergonomic experience tailored to you.

Lefty App Compatibility

- **Download:** Available on the Google Play Store: Lefty App.

Optimized Button Placement

- **Orientation Adjustment:** When wearing your watch on the right wrist, the Lefty app rotates buttons inward, toward your body, for easier access.

Simple Setup

1. **Download & Launch:** Install and open the Lefty app on your Moto 360.
2. **Grant Permissions:** Enable **Display over other apps** and **Modify system settings**.
3. **Activate Service:** Turn on the Lefty service in **Accessibility settings**.

Considerations

- **Gestures & Crown Rotation:** The app does **not** reverse wrist gestures or crown rotation. Focus remains on comfortable button access.
- **Always-On Screen:** The screen may remain Always-On, ensuring uninterrupted usability.

 With the Lefty app, the Moto 360 delivers a personalized, left-hand-friendly experience. Comfortable, functional, and tailored to your wrist!
