Connecting Bluetooth Accessories to Your Moto360

Inas B. - 2025-10-08 - Troubleshooting & Setup

Expand the functionality of your Moto360 by easily pairing Bluetooth accessories such as headphones, heart rate monitors, or other wearable devices. Follow these clear steps for a smooth connection experience.

Connecting Bluetooth Headphones

1. **Prepare Your Headphones:**
    - Activate pairing mode according to the instructions provided with your device.
2. **Connect Your Moto360:**
    - Wake up your watch if the screen is dim.
    - Swipe down from the top to open **Settings**.
    - Select **Connectivity → Bluetooth → Available Devices**.
    - Tap on your headphones when they appear to establish the connection.

Connecting Other Bluetooth Accessories

1. **Via Dedicated App (if available):**
    - Open the accessory's app on your Moto360 and follow on-screen pairing instructions.
2. **Via Bluetooth Settings:**
    - Swipe down from the top, go to **Settings → Connectivity → Bluetooth → Available Devices**.
    - Select your accessory and follow any on-screen prompts to complete pairing.

Important Notes:

- ANT+ accessories are not compatible with Wear OS by Google devices.
- Ensure your watch is awake and Bluetooth is enabled before pairing.

With these steps, your Moto360 can seamlessly integrate with a variety of Bluetooth accessories, enhancing your smartwatch experience.
