Manage App Notifications on Your Moto 360: Block or Unblock with Ease

Inas B. - 2025-10-08 - Product Features

The **Moto 360** lets you **control which apps send notifications**, giving you the flexibility to stay focused while staying informed. Whether you want to block a distracting app or re-enable alerts, the process is simple and intuitive.

How to Block App Notifications

1. **Open the Notification Window**
    - Swipe **right from the left edge** of the screen to access your notifications.
2. **Block the App**
    - Press and hold the notification for a few seconds.
    - When the **"Block Notification"** option appears, tap it.
    - Notifications from that app will no longer appear on your watch.

How to Unblock App Notifications

If you decide to receive notifications from a previously blocked app:

1. **Open App Notifications Settings**
    - Swipe **down from the top** of the watch face.
    - Tap **Settings > Apps & notifications > App notifications**.
2. **Select the App**
    - Tap **"Show all"** to view all apps.
    - Find the app you want to unblock.
3. **Enable Notifications**
    - Toggle the switch to allow notifications again.

With these simple steps, you can **tailor your Moto 360 notification experience**, keeping only the alerts that matter while avoiding distractions.
