Optimizing Language Preferences on Your Moto Watch 100

Inas B. - 2025-10-08 - Troubleshooting & Setup

Your Moto Watch 100 is designed to stay in sync with your preferences, making it easy to set and maintain your preferred language. Here's how to optimize your language settings:

1. Select Your Language

- On your watch, go to the language settings and choose the language you want to use.

2. Align With Your Device

- To keep your watch and mobile app consistent, enable **"Follow system language"** in the device settings within the app. This ensures a seamless experience across your devices.

Need Help?

- If you notice that the time or language on your watch doesn't match your mobile device, don't worry. Reach out to our support team at . Our experts are ready to help you get everything aligned perfectly.
