Unpairing Your Moto 360 from Your Phone

Inas B. - 2025-10-13 - Troubleshooting & Setup

Switching to a new phone or simply starting fresh? Unpairing your Moto 360 is straightforward and ensures your watch is ready for a new connection. Follow these steps for a smooth process.

Steps to Unpair Your Moto 360

1. **Open the Wear OS App:**
    - Launch the **Wear OS by Google** app on your smartphone.
2. **Access Advanced Settings:**
    - Scroll down and tap **Advanced Settings**.
3. **Change Device Settings:**
    - Tap **Change Device Settings** under the Advanced Settings menu.
4. **Initiate Unpairing:**
    - Select **Unpair Watch** to start the process.

> **Note:** Unpairing your Moto 360 will trigger a **factory reset**, restoring the watch to its default settings.

Important Considerations

- **Data Removal:** All user data and settings stored on the Moto 360 will be erased.
- **Wear OS App Update:** Information about the watch will also be removed from the Wear OS app on your previous phone.
- **New Device Ready:** After unpairing, your Moto 360 is prepared for pairing with a new device.

With these simple steps, you can confidently unpair your Moto 360 and start fresh, ensuring a seamless transition to a new smartphone.
